**ANT BAIT STATIONS**

**FOR USE IN COMMERCIAL, INDUSTRIAL AND RESIDENTIAL AREAS**

**ACTIVE INGREDIENT:** 
Pyrazole-3-carbonitrile 0.01%

**Other Ingredients:**
- Aluminum hydroxide
- Bentonite
- Silicon dioxide
- Silica aerogel
- Mann检查
- Squalane

**TOTAL:**
- Non-repellent

**EPA Reg. No.**
- 431-1262

**PRODUCT DESCRIPTION:**
- EPA P.I. 2008-GA-006

**CAUTION:**
- See Precautions Below

**FIRST AID:**
- If swallowed:
  - Call a Poison Control Center or Doctor for treatment advice.

- If in eyes:
  - Remove contact lenses if present, after flushing for 15-20 minutes.
  - If on skin:
    - Rinse with soap and water after handling bait stations.

**CONTENTS:**
- 24 Child-Resistant Bait Stations
- Total Net Weight: 3.6 oz (108.0g)
- Net Weight: 0.05 oz (1.5 g) per unit

**STORAGE:**
- Store in a cool dry area out of reach of children.

**PESTICIDE DISPOSAL:**
- Do not contaminate water, food, or feed by storage and disposal.

**MAXFORCE FC Ant Bait Stations**
- Contain an attractive bait formulation which kills Pharaoh ants and other common household ants: Argentine Ants, Crazy Ants, Pavement Ants, Cornfield Ants, and more.
- It works because it is non-repellent and does not cause secondary colony formation.
- Bait station design allows you to inspect each bait placement and monitor the amount of ant bait back to the queen and immature workers.
- Residual sprays may cause worker ants to spread bait back to the queen.
- It is a violation of Federal law to use this product in a manner inconsistent with its label directions.

**DIRECTIONS FOR USE:**
- **FIRST USE:**
  - For normal infestations, use 3 MAXFORCE FC Ant Bait Stations in an average size room. For heavier infestations, use additional bait stations in each affected area.
  - Bait stations can be placed in cabinets, next to dishes, near sensitive equipment, or in any other place suitable for ants.

- **OUTDOOR USE:**
  - Place bait stations adjacent to the home or structure near ant activity outlets (if wiring permits), potted plants, garbage cans, and trees.
  - Place bait stations along walls, window sills, sidewalks, and driveways.
  - Bait stations can be placed near electrical conduits, vents, pipe chases, concrete slabs, skylights on roofs, around ant mounds, garbage cans, and trees.

- **PRECAUTIONS:**
  - Inspect all bait stations and replace as needed for continuous control of ants.
  - Wash thoroughly with soap and water after handling bait stations.
  - Do not use near children, pets, or food or water sources.
  - Avoid placing the bait stations on freshly sprayed surfaces.

**DISCLAIMER OF WARRANTIES AND LIMITATIONS OF LIABILITY:**
- All risks associated with the use of this product are beyond the control of Bayer CropScience LP.
- Crop injury, ineffectiveness or other unintended consequences may result because of weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of Bayer CropScience LP.

- **LEGAL INFORMATION:**
  - To the extent consistent with applicable law, Bayer CropScience LP disclaims any liability whatsoever for special, incidental or consequential damages resulting from the use or handling of this product.

- **PRODUCT INFORMATION:**

ANY RACE STATIONS

PRECAUTIONARY STATEMENTS

WARNING: IF PRODUCT IS INhaled or ingests, call a Poison Control Center or doctor. Do not induce vomiting. Do not give anything by mouth if unconscious. Do not apply water. Airway obstruction may occur. If breathing is difficult, give oxygen. Do not give artificial respiration if heart has stopped. Get medical assistance. Cautiously wash clothing and equipment. Wash work area area. Contains: Fipronil: [5-Amino-1-(2, 6-dichloro-3-trifluoromethyl) phenyl]-4-(1, R, S)-(trifluoromethyl) sulfinyl)-1H-pyrazole-3-carbonitrile

STORAGE AND DISPOSAL:

Stable at room temperature. Keep from freezing. Do not contaminate water, food, or feed by storage and disposal. Store in a cool dry area out of reach of children. Wrap bait stations in several layers of newspaper and discard in trash.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Do not contaminate water, food, or feed by storage and disposal. MAXFORCE FC Ant Bait Stations contain an attractive bait formulation which kills Pharaoh ants, Odorous House Ants, Acrobat Ants and Thief Ants by contact and ingestion. When properly used, Maxforce Domino Effect®. Do not use residual sprays near the product, as the worker ants must remain alive to carry the product to the nest and out and form secondary colonies. MAXFORCE FC Ant Bait Stations works because it is non-repellent and thus will not cause secondary colony formation.

CONDITIONS:

The directions for use of this product are believed to be adequate and must be followed. MAXFORCE FC Ant Bait Stations have no insecticide odor, are child-resistant and easy to use. The bait stations can be stuck to a vertical surface by removing the easy peel and stick label. Increased ant activity may be seen near the bait stations immediately after placement for short periods but you can expect to see less activity within three days. After placement, ant trails may be observed between the bait stations and the nests. For best results do not spray the bait stations. Avoid placing the bait stations on freshly sprayed surfaces.

DIRECTIONS FOR USE:

1. Simply place each bait station indoors or outdoors (adjacent to the home or structure) immediately next to ant trails or close to areas where ants are numerous. Nests are usually located around electrical outlets (if wiring permits), potted plants, waste-paper baskets, garbage cans, and sinks. Bait stations should be placed near these areas in zoos and pet shops, place bait stations out of reach of zoo visitors. In homes and commercial buildings, bait stations should be placed no more than 3 feet from the floor and in shelf spaces higher than 6 feet. In schools, bait stations should be placed out of the reach of children and adults.

2. Indoor Use: For normal infestations, you should use 3 MAXFORCE FC Ant Bait Stations in an average room. If infestation persists beyond two weeks, replace all bait stations where the bait has been completely consumed and relocate bait stations that show no evidence of ant feeding.

3. Outdoor Use: Bait stations should be placed adjacent to the home or structure near ant activity or anywhere ants may gain access to the home or structure. Application sites include electrical conduits, vents, pipe chases, concrete slabs, skylights on roofs; around ant mounds, garbage cans, and trees; along walls, window sills, sidewalks, and driveways; on ground around home or structure.

4. The bait stations can be stuck to a vertical surface by removing the easy peel and stick label. Avoid placing the bait stations on freshly sprayed surfaces. Increased ant activity may be seen near the bait stations immediately after placement for short periods but you can expect to see less activity within three days. After placement, ant trails may be observed between the bait stations and the nests. For best results do not spray the bait stations. Avoid placing the bait stations on freshly sprayed surfaces.

5. Do not spray the bait stations. Avoid placing the bait stations on freshly sprayed surfaces.

CONTRACT, WARRANTY, TORT, NEGLIGENCE, STRICT LIABILITY OR OTHERWISE, SHALL NOT BE LIABLE FOR ANY INCIDENTAL, SPECIAL, OR CONSEQUENTIAL DAMAGES, INCLUDING BUT NOT LIMITED TO LOST PROFITS, LOST SAVINGS, OR ANY OTHER DAMAGE WHETHER BASED UPON CONTRACT, WARRANTY, TORT, NEGLIGENCE, STRICT LIABILITY OR OTHERWISE, WHICH EXCEED THE PURCHASE PRICE FOR THE PRODUCT DRAWN UP FROM THE USE OR HANDLING OF THIS PRODUCT.
