MAXFORCE®

PROFESSIONAL INSECT CONTROL® ROACH BAIT STATIONS

ROACH BAIT STATIONS

FOR USE IN COMMERCIAL, INDUSTRIAL AND RESIDENTIAL AREAS

ACTIVE INGREDIENT:
Fipronil* [5-amino-1-(2,6-dichloro-4-(trifluoromethyl) phenyl)-4-(1,R,S)-(trifluoromethyl) sulfinyl)-1H-pyrazole-3-carbonitrile] ................................................................. 0.05%
Other Ingredients: ........................................................................................................ 99.95%
TOTAL: ......................................................................................................................... 100.00%

*CAS No. 120068-37-3

CONTAINS: 72 Child-Resistant Bait Stations

KEEP OUT OF REACH OF CHILDREN
CAUTION: SEE PRECAUTIONS BELOW

Fipronil kills insects by blocking the gaba regulated chloride channel (based on in-vitro binding data in rat brain preparations and insect electrophysiology studies).
This product contains Fipronil, a [new] active ingredient which kills roaches by ingestion. In the process of ingestion, fipronil [the active ingredient] acts by blocking the GABA (Gamma Amino Butyric Acid) receptor chloride channel. Once chloride ions cannot pass through the channel, depolarization ensues resulting in continued release of excitatory transmitters and hyperexcitation of the neuron.
This product may be used for the control of small cockroaches, such as German or Brown-Banded roaches, in any area where cockroaches are a problem, such as residential, warehousing and commercial establishments, including food service, food manufacturing and food processing facilities, hospitals, schools, daycare centers, nursing homes, health care facilities, laboratories, computer and electronic equipment facilities, pet shops, zoos, basements, buses, boats, trains and aircraft. The patented transparent red top enables you to monitor bait consumption while providing roaches their preferred environment, darkness, because roaches do not see light in the red spectrum. This product has an odorless bait that roaches eat even in the presence of other foods and is packaged in a child-resistant bait station.

DIRECTIONS FOR USE:
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
1. Place MAXFORCE® FC in areas where cockroaches have been seen and where they hide. Cockroaches infest dark, warm, damp locations.
2. The bait stations can be stuck to a vertical surface by peeling off the protective strip to expose adhesive.
3. For effective roach control use 4-6 bait stations per 100 square feet of horizontal surface area. Place adjacent to walls and flush in corners. Do not place more than 24 bait stations per residence. For outdoor use place stations adjacent to structure.
4. Do not spray the bait stations. Avoid placing the bait stations on freshly sprayed surfaces.
5. Roaches will begin eating the bait immediately and you should expect to see fewer roaches within 3 days.
6. Inspect all bait stations and replace as needed for continuous control of roaches.

TOTAL NET WEIGHT
3.8 oz (108 g)
0.053 oz (1.5 g) per unit

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS.
CAUTION: Wash thoroughly with soap and water after handling bait stations.

STORAGE AND DISPOSAL:
Do not contaminate water, food or feed by storage and disposal. STORAGE: Store in a cool dry area out of reach of children. DISPOSAL: Wrap bait stations in several layers of newspaper and discard in trash.

NIBAN®-FG
FINE GRANULAR BAIT

A Weather/Moisture Resistant Bait to Kill and Control Ants, Cockroaches, Crickets, Mole Crickets and Silverfish

FOR BOTH INTERIOR AND EXTERIOR USE

For Use In and Around Homes, Apartments, Garages, Public and Private Institutions, Schools, Hotels, Hospitals, Pet Stores, Zoos, Kennels, Warehouses, Supermarkets, Restaurants, Vending Machines and Food Processing Plants

ACTIVE INGREDIENT:
Orthoboric Acid .................................... 5%
OTHER INGREDIENTS.......................... 95%
TOTAL.....................................................100%

EPA Reg. No. 64405-2 EPA Est. 64405-TN-1

PRECAUTIONARY STATEMENTS
Hazards to Humans & Domestic Animals
CAUTION: Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

Personal Protective Equipment (PPE)
Applicators and handlers must wear: Long-sleeved shirt and long pants; chemical-resistant or waterproof gloves; and shoes plus socks.

First Aid
If In Eyes:
• Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
• Call a poison control center or doctor for treatment advice.

If On Skin:
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15 – 20 minutes.
• Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

Environmental Hazards
Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters or rinsate.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL INFORMATION
This product is a ready-to-use, weather/moisture resistant bait for the control of Ants, Cockroaches, Crickets and Silverfish including: ANTS: Argentine, Carpenter, Thief, Pharaoh, Little Black, Pavement, Odorous House and Crazy Ants. COCKROACHES: Asian, American, Brown, Brown Banded, Smokey Brown, German and Oriental Cockroaches. CRICKETS: Camel, House, Field and Mole Crickets.

Do not contaminate this product with other pesticides. If this product becomes contaminated with another pesticide it will lose its effectiveness. Do not apply directly to food. In commercial food handling facilities, cover or remove any food during application. In food handling areas, bait may be placed in removable trays. Always record the number and location of bait stations. This product is designed to be used as a residual treatment in an Integrated Pest Management program incorporating good sanitation practices. This product may be applied in appropriate areas with a power duster. (Except in California) Consult equipment manufacturer for recommended settings. Children and pets should not be in the treatment area until after application is completed. Do not treat pets with this product. Avoid contamination of feed and foodstuff. Avoid contamination of ornamental plants.

KEEP OUT OF REACH OF CHILDREN

CAUTION

Storage & Disposal
Do not contaminate water, food or feed by storage or disposal. Pesticide Storage: Store in a dry place. Do not store where children or animals may gain access. Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Container Disposal: Completely empty bag. Then dispose of empty bag in a sanitary landfill or by incineration, or if allowed by State and local authorities, by burning. If burned, stay out of smoke.
